**ENGAGEMENT OF APPRENTICES AT NAVAL SHIP REPAIR YARD
AND NAVAL AIRCRAFT YARD, NAVAL BASE, KOCHI - 4**

1. Naval Ship Repair Yard (Kochi) is a premier Ship Repair facility of southern Naval Command. This yard undertakes the entire repair, refit and maintenance of the Hull (Body of the Ship), Propulsion System, power generation system, Communication systems, and weapon system of Warships based here and visiting Naval Ships.
2. The Yard has got more than 50 workshops / work centers equipped with state of art machineries to undertake the various repairs of the ship. The Yard has also more than 1000 personnel employed in more than 40 trades. Personnel also being trained periodically to be conversant with modern machineries and technologies.
3. Naval Ship Repair Yard has an Apprentice Training School (ATS) functioning in accordance with Apprentices Act 1961. This Apprentice School has got well experienced, motivated and trained staff to take classes and provide guidance to the apprentices. Presently, 157 apprentices are undergoing training in 16 different trades. ATS is equipped with well furnished, air-conditioned Model classroom and class rooms with modern training and teaching aids. Besides, the regular theoretical and practical training, ATS conducts various cultural and personality development programs. We have indoor as well as outdoor games facilities to conduct various tournaments such as Badminton, Hand ball, Football, Basketball and cricket. A well equipped gymnasium of the yard is also utilized by the apprentices. The aim of Apprentice Training School is not only to bring up good technicians but also to develop qualified and civilized individuals. Apprentices trained at Naval Ship Repair Yard (K), always remain ahead of apprentices trained in any other institutions and industries and various industries are keen to absorb our Apprentices in preference to others.
4. Presently, following trade's apprentices nomination list is required from your reputed RI Centre for recruitment of apprentices for Oct 2020 batch.
