ACHIEVEMENTS

- **The Industrial production will be of increasing importance in the domestic market the tailors shops will be in a more competitive situation. Therefore, it is very important that the training of Cutting and Tailoring focuses more on quality consciousness in order to improve the sewing performance in the Tailors Shop.**

At the end of the Training the trainees organize plan and evaluate their work independently and to estimate the material required.

The trainees will be able to convert given pattern designs into a pattern for individual measurement and to stitch a dress accordingly to an agreed quality standard.
